#### PURPOSE

To develop and implement preventative systems to protect the Shire's resources and income streams so that accidental occurrences will not interrupt the Shire from achieving its Strategic and Customer Service objectives.

#### POLICY

The Shire of Mundaring will:

- Regularly evaluate risk minimisation strategies and procedures and monitor costs in order to optimise the safety and security of the Shire;
- Develop and implement a Risk Register Database which identifies, evaluates and treats key risk/loss exposure areas faced by the Shire; and
- Develop and implement a Business Continuity Management Plan and related Emergency Response plans
