Roadworks Notification - Roland Road, Parkerville

Upcoming Road Resurfacing Works

Dear Resident,

As part of the Shire of Mundaring's 2026/27 Capital Works Program, the Shire will be undertaking road resurfacing works on Roland Road, Parkerville, from just north of McDowell Loop to beyond Hawkstone Street, ending prior to the Toodyay Road intersection.

The works will involve the application of a tack coat and asphalt overlay using a 40mm 14/75 GG-CRM asphalt mix to improve the condition, safety and longevity of the road.

This notification has been distributed to residents and property owners within and surrounding the project area, as the works may result in temporary traffic disruptions for local road users.

When will the works occur?

The works are currently planned to commence towards the end of November 2026 and are expected to be completed over four shifts, weather permitting.

The Shire is currently finalising traffic management arrangements and obtaining the necessary approvals. As a result, specific dates and traffic conditions cannot be confirmed at this stage.

Traffic Impacts

Residents and road users should expect:

- Temporary traffic delays.
- Changed traffic conditions within the work area.
- Possible detours or road restrictions during portions of the works.
- Increased construction activity and traffic management personnel within the area.

Traffic management will always be in place to ensure the safety of road users, residents and workers.

Every effort will be made to minimise disruptions and maintain traffic flow where possible.

Property Access

Residents and property owners within the work area will continue to have access to and from their properties throughout the project. Traffic controllers will assist residents as required, although some short delays may be experienced while paving activities are underway.

Stay Informed

Variable Message Boards (VMBs) will be installed in the area ahead of the works to provide advance notice and project updates.

The Shire will also provide updates through its official social media channels and website as more information becomes available regarding timing and traffic management arrangements.

Location of Works

Please refer to the attached aerial plans showing the extent of the proposed road resurfacing works on Roland Road.

The Shire appreciates the community's patience and cooperation while these important road improvements are completed.

Should you wish to discuss the proposed works, please contact the Shire’s Coordinator Civil Works, Gary White on 9290 6691.

Regards,

Clinton Kleynhans
