The Shire of Mundaring respectfully acknowledges the Whadjuk, people of the Noongar Nation, who are the traditional custodians of this land. We acknowledge Elders past, present and emerging and respect their continuing culture and the contribution they make to the region.

Shire of Mundaring

Introduction

This digital directory is intended to provide information and contact details for schools and community groups about environmental education opportunities available in the Shire of Mundaring, and wider Perth region. The providers listed offer resources, excursions, self-guided tours, incursions, school program and/or professional learning for teachers. The directory also provides a brief overview of the Shire of Mundaring's environmental programs relevant to schools and community groups.

Shire of Mundaring Environmental Staff

The Shire has several staff in the Built and Natural Environment directorate who work to enhance the environment including: the Parks & Reserves team, Environmental Officers, Community Landcare Officer, Land for Wildlife Officer, Sustainability Officer and Planning Officers. For questions, queries or to engage with staff please call the Shire on 08 9290 6666 or complete an online enquiry form, so it can be directed to the most appropriate staff.

Seedlings from the Shire of Mundaring's Seedlings for Landcare program.

Shire of Mundaring Environmental Programs

Seedlings for Landcare

The Seedlings for Landcare Program provides approximately 20,000 free native seedlings for planting on rural-zoned private properties, school grounds and bushland reserves in the Shire of Mundaring. The aim of the program is to restore local bushland, creek lines and wildlife corridors to improve habitat for native animals. Please check the Shire's [Seedling for Landcare webpage](#) for most relevant and current information about the program.

Friends and Catchment Groups

Friends and Catchment Groups are volunteers who undertake land care and bush care activities to protect and restore natural areas. Friends Groups help look after bushland on local nature reserves through planting of native seedlings, weeding and other activities. Catchment Groups work to improve the health and habitat values of our rivers and waterways. Being involved in restoration of bushland and waterways has many benefits for personal well-being, strengthening community connections and maintaining our natural heritage for future generations. For more information including current groups please check the Shire's [Catchment and Friends Groups \(Volunteers\) webpage](#).

Adopting a Local Nature Reserve

Schools, community groups, and residents are invited to adopt a local nature reserve and play an active role in caring for the environment. Nearby residents can form a Friends Group to restore and maintain parks or reserves in partnership with the Shire's Landcare Team. Activities may include nature walks, planting days, and bushland restoration projects. If your school is planning an excursion or environmental activity in a Shire reserve, contact the Supervisor Environment and Horticulture on (08) 9290 6749. The Shire can provide advice, assist with coordination, and help ensure activities do not overlap with other groups.

Mundaring Environmental Art Project

The Mundaring Arts Centre Inc., in partnership with the Shire of Mundaring runs an annual Environmental Art Project (EAP). The project invites primary school and homeschool students in the Shire of Mundaring and the City of Swan to explore local environmental challenges, while creating a meaningful artwork that advocates for the protection of our ecosystems. The project features an:

- environmental drawing competition for primary school students,
- exhibition of entries and a people's choice vote,
- selected designs installed as banners in the Mundaring Town Centre.

Please check the Shire's [Environmental Art Project webpage](#) for annual theme, key dates and information.

Directory

Angela Rossen Artist and Biodiversity Educator

Offers cross-curricular workshops that connect students with nature and biology through biodiversity surveys, observational drawing, and painting. Activities explore whole-system ecology, plant and animal zonation, and feeding relationships, aligned with WA Curriculum sustainability priorities. Predesigned or custom workshops available.

Website: www.angelarossen.com/school-workshops

Email: info@angelarossen.com

Animal Ark

Offers a selection of online environmental resources and provides highly adaptable wildlife displays, school incursions, and event activations. Their engaging sessions introduce real live lizards, frogs, insects, and snakes directly to your venue, giving students, guests, and staff a close-up wildlife experience.

Website: www.animalark.com.au/services/public-events-schools/

Email: info@animalark.com.au

Phone: 08 9243 3044

Amy Wild Adventures

Amy travels throughout the Perth metro area and beyond to share her love and knowledge of reptiles. She offers engaging reptile experiences for school visits, event activations, and children's parties, helping audiences learn about native reptiles in a fun, hands-on way.

Website: www.reptileeducator.com

Email: amywildadventures@gmail.com

Phone: 0432 884 904

Australian Association for Environmental Education (WA)

Promotes environmental education through events, conferences, and networking. They publish a monthly Environmental Educators Network (EEN) bulletin featuring training opportunities and ways to get involved. Regular events throughout the year including:

- Catchments, Corridors and Coasts (January)
- Earth Day Expo (April)
- Biological Earth Environmental Science Yr 9 – 11 Day (BEES Day)
- The Science Week Community Expo (August)
- The Turtle Watch program
- Western Australian Education for Sustainability Forum (November)
- Little Green Steps WA

Website: www.aae.org.au/get-involved/your-chapter-or-branch/western-australia/

Email: info@aaeewa.org.au

Australian Youth Climate Coalition

AYCC is Australia's largest youth-run organisation, building a generation-wide movement of young people working for a clean and just future. They offer online and in-person in-school workshops for high schools, designed to spark students' interest in climate justice and practical climate solutions.

Website: www.aycc.org.au/school-workshops

Email: schools.team@aycc.org.au

Australia's Science Channel

On Australia's Science Channel's free platform you'll find compelling videos, articles, podcasts, news and events from our publishing partners and Australia's Science Channel's contributing editors. Features content from leading minds, universities, organisations and institutions across Australia to provide compelling science stories for everyone to watch, read and listen.

Website: www.australiascience.tv/education/

Beelu National Park

Part of the Darling Range, this park offers jarrah, marri, grasstrees, wandoo trees, wildflowers in spring, and native wildlife. Previously called Mundaring National Park, it was renamed to recognise the Beelu aboriginal people of the area. The park features the Kalamunda Circuit and Munda Bidli Trail for mountain biking and is home to the Perth Hills Discovery Centre and Nearer to Nature programs.

Website: <https://exploreparks.dbca.wa.gov.au/park/beelu-national-park>

Phone: 08 9290 6100 between 8.30am – 4.30pm (park is open 24 hours a day)

Address: Mundaring Parks and Wildlife Office, 275 Allen Road, Mundaring WA 6073

Bilya Koort Boodja

An interactive educational centre in Northam showcasing Nyoongar culture and environmental knowledge. Offers guided tours, exhibitions, cross-cultural training, and school programs.

Website: www.bilyakoortboodja.com

Email: bkbadmin@northam.wa.gov.au

Phone: 08 9622 2170

BirdLife Australia

BirdLife Australia provides a wide range of online resources, including information on native birds, Birds in Schools information, and citizen science projects such as Birds in Backyards seasonal surveys, the Aussie Bird Count, and the Great Cocky Count. The website also links to local groups, including BirdLife WA, for region-specific activities and support.

Website: www.birdlife.org.au

Email: wa@birdlife.org.au

Phone: 08 9383 7749 (Monday to Friday, 9:30am-12:30pm)

Budding Concepts

Hannah Smith is a passionate horticulturalist and dedicated plant enthusiast with extensive experience across the horticulture sector. Hannah is a qualified educator offering garden consultations, workshops, community events, and school incursions that help people connect with plants and sustainable gardening.

Website: www.buddingconcepts.com.au/school-incursion

Email: admin@buddingconcepts.com.au

Phone: 0433 555 673

Bush Rangers (Cadet Program)

A voluntary nature conservation program for secondary students (12–17 years) under Cadets WA. Units meet weekly for practical activities that build confidence, teamwork, leadership, and problem-solving skills through environmental projects. Endorsed by the School Curriculum and Standards Authority; completion of Levels 1–3 counts toward WACE requirements.

Website: www.dbca.wa.gov.au/get-involved/education/education/bush-rangers

Email: bushrangers@dbca.wa.gov.au

Phone: 08 9295 2244

BuzzEd Australia

Luke De Laeter is a new-generation apiarist sharing his passion for bees and biodiversity. BuzzEd Australia aims to inspire awareness of the importance of bees in our environment and offers school incursions designed to educate children across Australia and support a sustainable future.

Website: www.buzzedaustralia.com

Captain Cleanup

WA's own sustainability superhero, Captain Cleanup (Quintin George), helps educate young Western Australians about keeping Australia beautiful. He appears at schools, universities, festivals, and community events to perform fun, engaging sustainability shows that inspire positive environmental action.

Website: www.captaincleanup.com.au

Email: quintin@captaincleanup.com.au

Phone: 08 9203 9746

Caversham Wildlife Park

Located within Whiteman Park, Caversham Wildlife Park offers an immersive experience with over 200 species and more than 2,000 animals, birds, and reptiles. They provide primary school, secondary school and vacation care excursions, giving students the opportunity to explore and learn about unique Australian wildlife.

Website: www.cavershamwildlife.com.au/excursions/

Email: sales@cavershamwildlife.com.au

Phone: 08 9248 1984

Address: Caversham Wildlife Park, 233B Drumpellier Drive, Whiteman WA, 6068

Cleanaway Waste Education Programs

Provides face-to-face and online waste education sessions for all school levels, universities, and TAFEs. Programs complement national and state syllabuses and align with local council requirements.

Website: www.cleanaway.com.au/education/schools

Email: via enquiry form on webpage

Cool. Org

Formerly Cool Australia, this platform offers science and sustainability education resources for students and teachers, plus online professional development courses. Provides real-world, curriculum-aligned teaching materials sortable by resource type, year level, subject, and topic.

Website: www.cool.org

Eastern Hills Branch of the Wildflower Society

Promotes appreciation and conservation of WA native plants through monthly meetings, propagation workshops, bushwalks, and plant identification activities. Meetings held February to November on the fourth Friday of every month at Octagonal Hall, Glen Forrest.

Website: www.wildflowersocietywa.org.au/branches/eastern-hills-branch/

Email: enquiry@wildflowersocietywa.org.au

Eco Action

Empowers communities to protect the environment through education. Offers workshops, school programs (excursions and incursions), eco art projects including murals, and eco-themed events, all led by environmental professionals.

Website: www.ecoactionwa.org

Email: admin@ecoactionwa.org

Phone: 0400 888 171

Eco Faeries

Eco Faeries provide a unique service that connects children with nature through the magic of faeries. They offer a curated selection of educational workshops for schools, child care centres, community groups, and libraries.

Website: www.ecofaeries.com

Email: faiericara@hotmail.com

Phone: 0415 174 119

FEAST by OzHarvest

FEAST (Food Education and Sustainability Training) is a FREE 10-week curriculum-aligned education program for primary and high schools, which explores the issue of food waste and its environmental impact, positive food choices and easy classroom cooking.

Website: www.education.ozharvest.org

Email: feast@ozharvest.org

Get on Board – Transperth

The Transperth Education team provide support to help students learn about public transport. They offer resources, network tours, incursions, excursion transport planning, and virtual games. Resources can be used for a variety of year levels to learn more about sustainable transport.

Website: www.pta.wa.gov.au/our-system/pta-educate

Website: <https://getonboard.transperth.wa.gov.au/Web-sitemap>

Grow, Cook, Eat WA

Nicole and her team deliver nutrition, cooking, sustainability and gardening workshops throughout WA. They offer school incursions for Year 3 to Year 10, along with event activations and consulting services.

Website: www.growcookeatwa.com.au

Email: nicole@growcookeatwa.com.au

Phone: 0478 592 773

Herdsmen Lake Wildlife Centre by Gould League WA

The Gould League WA manages the Herdsmen Lake Wildlife Centre, offering resources, excursions, incursions, and virtual programs. Students from Pre-Primary to Year 12 can explore a real Western Australian wetland while learning scientific, historical, geographical, and cultural concepts through hands-on experiences. All programs are interactive, activity-based, and aligned with the Australian Curriculum, with additional excursions available for Holiday Care Providers.

Website: www.wagouldleague.com.au

Email: admin@wagouldleague.com.au

Phone: 08 9387 6079

Address: Herdsmen Lake Wildlife Centre, Cnr Flynn and Selby Streets, Wembley WA 6018

iNSiGHT Ornithology & Re-Cycl-Ology

Dr Simon Cherriman is an environmental biologist, educator, and filmmaker offering interactive presentations on birds and wildlife, guided bushwalks, and nest-box building workshops for schools and community groups. Simon has installed and monitored nest-boxes at schools and reserves and worked on projects tracking wedge-tailed eagles and conserving threatened bird species in Western Australia.

Website: www.re-cyc-ology.com.au or www.simoncherriman.com.au

Email: recycology.project@gmail.com

Phone: 0422 916 747

John Forrest National Park

One of Australia's oldest conservation areas and Western Australia's first national park, proclaimed in 1900. The visitor area features an historic tunnel, barbecue and picnic facilities, and cultivated gardens of native plants. The rest of the park remains largely undeveloped, supporting diverse plant communities and wildlife. Two seasonal waterfalls, Hovea and National Park Falls, flow during winter and spring.

Website: <https://exploreparks.dbca.wa.gov.au/park/john-forrest-national-park>

Phone: 08 9290 6100 between 8.30am – 4.30pm (park is open to walkers 24 hours a day)

Address: Parks and Wildlife Service, 275 Allen Road, Mundaring WA 6073

Junior Landcare

Junior Landcare empowers children to take an active role in caring for the environment. The program offers grants, educational resources, campaigns, and connections to other environmental organisations. The Junior Landcare Learning Centre provides curriculum-aligned activities for early learning centres and primary schools, helping educators, parents, and children build knowledge in:

- Food production
- Biodiversity
- First Nations perspectives
- Waste management.

Website: www.juniorlandcare.org.au

Email: juniorlandcare@landcareaustralia.com.au

Kaarakin Black Cockatoo Conservation Centre

A not-for-profit wildlife centre in the Perth Hills dedicated to the rescue, rehabilitation, and release of sick and injured Western Australian black cockatoos. The website features online resources about these birds and offers engaging excursions and incursions for schools and community groups.

Website: www.blackcockatoorecovery.com

Phone: 08 9390 2288

Address: 322 Mills Road East, Martin WA 6110

Kanyana Wildlife Rehabilitation Centre

A not-for-profit organisation dedicated to wildlife conservation. Kanyana cares for sick, injured, orphaned, and displaced wildlife, breeds threatened species, and provides education for schools and the community. They offer unique, engaging incursions and excursions for students of all ages, along with professional development for educators.

Website: www.kanyanawildlife.org.au

Email: info@kanyanawildlife.org.au

Phone: 08 9291 3900

Address: 120 Gilchrist Road, Lesmurdie WA 6076

Karakamia Sanctuary

Located in the Perth Hills near Chidlow, Karakamia Sanctuary is a protected bushland area surrounded by a vermin-proof fence. All foxes, cats, and rabbits have been removed, and native species such as the numbat, woylie, tammar, quenda, and western ringtail possum have been reintroduced. The sanctuary is currently closed to the public while undergoing important conservation development, please check the website for the latest visitation and booking information.

Website: www.australianwildlife.org/sanctuaries/karakamia-wildlife-sanctuary

Email: visitkarakamia@australianwildlife.org

Phone: 0438 107 546

Address: Australian Wildlife Conservancy, 4360 Lilydale Road, Chidlow WA 6556

Keep Australia Beautiful WA (Clean School Program & Adopt-a-Spot Program)

Supports schools in litter prevention through the Clean School Program, offering a guide, free professional development workshops for teachers, case studies, and curriculum materials. Also runs the Adopt-a-Spot Program, where individuals, community groups, businesses, or schools can volunteer to help create a cleaner environment. Volunteers receive free resources, insurance cover, and an Adoption Certificate.

Website: www.wa.gov.au/organisation/keep-australia-beautiful-wa

Email: cleanschools@kabc.wa.gov.au

Email: adoptaspot@kabc.wa.gov.au

Kings Park Education

Provides hands-on, inquiry-based education programs for students from Kindergarten to Tertiary. Programs highlight Western Australia's unique plants, people, and places, and explore the role we can all play in a sustainable future. All programs are delivered by qualified educators and align with Australian Curriculum general capabilities and cross-curriculum priorities.

Website: www.bgpa.wa.gov.au

Email: education@bgpa.wa.gov.au

Phone: 08 9480 3638

Lake Leschenaultia

A 168-hectare bushland reserve known for canoeing, swimming, cycling, and barbecue facilities, perfect for family outings. Features shaded areas, lawns, white sand beaches, playground equipment, and shelters available for hire. Built in 1897 as a dam for steam engines, the lake is surrounded by Marri and Wandoo trees, wildflowers, and abundant wildlife including birds, kangaroos, possums, quenda, and echidnas.

Website: www.mundaring.wa.gov.au/leisure-lifestyle/lake-leschenaultia

Email: lake@mundaring.wa.gov.au

Phone: 08 9290 6736 (Perth Hills Mundaring Visitor Centre)

Address: Lake Leschenaultia, 2135 Rosedale Road, Chidlow WA 6556

Lessen with Peg

Peg Davies is a waste educator with over 17 years' experience working with local government, schools, and the wider community. She offers a variety of waste-related talks, workshops, activities and event activations for workplaces, community groups, schools, and early learning centres.

Website: www.lessenwithpeg.com/whats-on-offer

Email: pegd@westnet.com.au

Phone: 0422 941 492

Little Green Steps WA

A not-for-profit program associated with AAEE that supports Education for Sustainability in early learning centres across Western Australia. Offers a quarterly newsletter, resources, sustainability directory, and advice. Provides incursions for Early Childhood Professionals based on the Early Years Learning Framework and WA Curriculum, as well as workshops for staff professional development.

Website: www.littlegreenstepswa.org.au

Email: lgs@aaeewa.org.au

Phone: 0400 623 131

Millennium Kids

Empowers young people to explore and address environmental and sustainability issues locally and globally. Programs are co-designed with youth and support schools in meeting cross-curriculum priorities, general capabilities, and learning areas. Millennium Kids collaborates with the Department of Education through the Sustainable Schools Initiative WA to help implement the Australian Curriculum. The website offers resources, projects, events, newsletters, and membership options (Kid, Youth Board, Adult), plus workshops and professional learning.

Website: www.millenniumkids.com.au

Email: info@millenniumkids.com.au

Phone: 0418 923 968

Natsync Environmental

Joe Tonga delivers a range of environmental education workshops for community members and schools interested in learning practical skills for sustainable living. His website includes resources for building bat boxes, and he offers habitat-building workshops and guided night walks that help participants connect with local wildlife in meaningful, hands-on ways.

Website: www.natsync.com.au/

Email: Contact via enquiry form on webpage

Phone: 0418 918 367

Nearer to Nature

The Department of Biodiversity, Conservation and Attractions' Nearer to Nature programs offer fun, hands-on activities in natural environments to help communities learn about and protect Western Australia's unique biodiversity. Programs run across diverse locations including the Perth metro area, the South West, and the Valley of the Giants Tree Top Walk. Nearer to Nature Schools provides curriculum-linked incursions, excursions, and professional development for educators.

Website: www.dbca.wa.gov.au/get-involved/education/nearer-nature-schools

Email: n2n@dbca.wa.gov.au

Phone: 08 9295 2244

Address: The Perth Hills Discovery Centre, 380 Allen Road, Mundaring WA 6073

No. 1 Pump Station Mundaring Weir

Located at the foot of Mundaring Weir, this heritage site offers an opportunity to explore one of Western Australia's most significant engineering landmarks in a forest catchment setting. Education resources are available online, and excursions are offered for Year 2 HASS (History) and Science: Earth's Useful Resource of Water. Please refer to the website for booking information.

Website: www.ntwa.com.au/places-to-visit/no-1-pump-station/

Email: trust@ntwa.com.au

Phone: 08 9321 6088

Address: Mundaring Weir Road, Mundaring WA 6073

Paruna Sanctuary

Located in the Perth Hills, Paruna Sanctuary protects diverse habitats and is partially surrounded by a vermin-proof fence. Introduced predators have been controlled, and native species such as the woylie, tamar wallaby, quenda, and black-flanked rock wallaby have been reintroduced. Visitors can enjoy a series of walk trails ranging from the 2 km Possum Loop to the 12 km Numbat Track, with trail notes available. Bookings are essential, please check the website for details.

Website: www.australianwildlife.org/sanctuaries/paruna-wildlife-sanctuary

Email: visitparuna@australianwildlife.org

Phone: 0438 107 546

Perth Observatory

Western Australia's oldest astronomical observatory offers primary school day tours for Years 3 to 6, aligned with the Australian National Curriculum, and caters to homeschool groups in the same year range. Also provides out of school holiday care tours for children aged 4 to 12, delivering fun, educational experiences that inspire curiosity about space and science. Visit the website under "School Day Tours & Tours" for activity details and bookings.

Website: www.perthobservatory.com.au

Email: info@perthobservatory.com.au

Phone: 08 9293 8255 (Monday to Friday 10am to 4.30pm)

Address: Perth Observatory, 337 Walnut Road, Bickley WA 6076

Perth Zoo (including Habitat for Wildlife program)

Located in South Perth, Perth Zoo offers self-guided experiences and excursions for primary, secondary, and homeschool groups. They also run the Habitats for Wildlife school program (Kindergarten–Year 12), a hands-on, youth-led initiative that empowers students to become champions for wildlife and guardians of their local environment.

Website: www.perthzoo.wa.gov.au

Email: Contact via enquiry form on webpage

Phone: 08 9474 0444 (9am – 5pm weekdays)

Address: Perth Zoo, 20 Labouchere Rd, South Perth WA 6151

ReMida

ReMida promotes Reggio Emilia-inspired education, arts, and environmental activities across WA. They repurpose discarded materials into creative learning resources and offer incursions and excursions for school holidays, early years, primary, and secondary students, along with a range of festival and event-based programs.

Website: www.remidawa.com

Email: frontdesk@remidawa.com

Phone: 08 9227 5576

ReWild

Provides resources and guidance for community members to create beautiful, sustainable gardens that improve biodiversity and provide habitat. The website offers a variety of plant, animal, and backyard projects, searchable by multiple filters. These localised resources are ideal for upper primary and secondary school activities.

Website: www.rewildperth.com.au

River Rangers (Cadet Program)

A primary school cadet program for Years 5 and 6, designed to engage and educate students about protecting local rivers. Part of the broader Cadets WA program, coordinated and funded by the Department of Local Government and Communities, with unit coordination by DBCA. This voluntary program runs mostly outside classroom time and serves as a precursor to the Bush Rangers Cadet Program for secondary schools. Activities include tree planting, litter pick-ups, bird and bat box building, biodiversity surveys, water quality testing, and creating native gardens.

Website: www.dbca.wa.gov.au/get-involved/education/river-rangers

Email: n2n@dbca.wa.gov.au

Phone: 08 9295 2244

Science Alive

Delivers fun, educational science programs for schools, holiday programs, libraries, and sustainability festivals. Programs are suitable for all ages and directly linked to the Australian Curriculum and commonly used primary science teaching programs.

Website: www.sciencealive.com.au

Email: scialive@bigpond.com

Phone: 08 6278 3838

SciTech

Offers a wide range of incursions and excursions on science topics, professional development workshops, and specialist programs for schools and the community. Excursions can be booked as half-day or full-day options, while incursions cover various topics. Additional programs include a Science After-School option. Teachers can subscribe to science newsletters, including Scitech eNews for teachers, via the website.

Website: www.scitech.org.au

Email: info@scitech.org.au

Phone: 08 9215 0700

Address: City West Centre Corner Railway Street &, Sutherland Street, West Perth WA 6005

South East Regional Centre for Urban Landcare (SERCUL)

Provides a wide range of programs and resources to promote environmental responsibility and catchment management in the Perth region. Offerings include incursions, excursions, presentations, professional learning, newsletters, and educational resources for schools and community groups.

Website: www.sercul.org.au/for-educators/

Email: sercul@sercul.org.au

Sustainable Schools WA

An initiative supporting a whole-school approach to sustainability education, aligned with the Western Australian and Australian Curriculum cross-curriculum priority of sustainability. The program provides a toolkit of resources, case studies, professional development, and networking opportunities. Local Schools Network meetings are held once a term at participating schools or the Perth Hills Discovery Centre, to share ideas and best practices.

Website: www.myresources.education.wa.edu.au/programs/sustainable-schools-wa

Email: howard.flinders@education.wa.edu.au

Phone: 08 9402 6259

Synergy Schools Solar Challenge

A STEM-based solar car competition for Year 6 and Year 8 students across Western Australia. The program teaches students about solar energy through lesson plans in Term 1, culminating in a Challenge Day heat where teams design, build, and race their own solar-powered model cars against other schools.

Website: www.solarchallenge.net.au

The Worm Shed

Offers K–12 school incursions that are informative, educational, and highly interactive. Each one-hour session, tailored to age level, covers worm biology, recycling, and sustainability in a fun and engaging way. The Educators Program is designed for staff in early learning centres, schools, and OSHC to learn how to set up and maintain a worm farm on campus.

Website: www.wormshed.com.au

Phone: 0437 224 415

Trillion Tree Australia

Trillion Trees Australia is a not-for-profit organisation running community-driven ecological restoration projects, a native plant nursery, and community events. They also deliver SPROUT! Trillion Trees Schools Program, a hands-on initiative fostering environmental stewardship. Through incursions and excursions, students take part in practical activities such as propagating seeds & cuttings and cultivating their own native seedlings.

Website: www.trilliontrees.org.au

Tucker Bush Schools Program

Aims to bring the unique flavours of native edible plant species back into the mainstream. Australia is home to thousands of native bush foods that sustained Aboriginal peoples for generations, yet most backyard plants today are exotic. The program promotes awareness through school activities and competitions, offering plant packs, educational resources, and bush food prizes. The website also features recipes and native plant shopping options.

Whiteman Park

Whiteman Park offers interactive excursion programs for Pre-primary to Year 6, focusing on the natural environment, conservation, groundwater, ecosystems, and transport heritage themes. Teachers can filter programs by learning area, curriculum, and year level. The Park also hosts the Children's Gnamptara Groundwater Festival, a one-day event for middle and upper primary students to learn about water, groundwater, and sustainability through hands-on activities, interactive sessions, and festival fun. Registrations are usually due in May for the Term 4 event.
